DO YOU DARE BOARD THE
TROLLEY OF THE DOOMED?

The evening hours are upon you. Unseen spirits stroll among the living in the streets and squares of Savannah - "America's Most Haunted City!" Hear the tales no other tours dare tell as shadows play tricks on your mind.

Now Ghosts & Gravestones guests will experience America's Most Haunted City like no other tour with EXCLUSIVE nighttime entry into TWO of Savannah's most haunted venues. FIRST, a stop at the site of the Gribble House, the scene of a triple murder in 1909 that the *Savannah Morning News* described as "the most diabolical crime ever committed in Savannah." Recent investigations from professional paranormal groups have reported multiple paranormal phenomena throughout the building including vivid light anomalies (Orbs), astounding voice recordings (EVPs) and some of the strongest electronic pulse readings (EMF's) they have ever experienced. THEN on to the Perkin's & Son's Ship Chandlery to commiserate with the spirits and truly EXPERIENCE the stories of haunted River Street. ONLY Ghosts & Gravestones takes you to both of these haunted attractions!
